

SANITARY MEASURES AGAINST COVID-19

At Atlantic Air Solutions we are aware that the current Covid-19 situation has created a certain feeling of insecurity in regards to flying.

In our eagerness to provide, as always, the best service and make our passengers feel safer not only on an operational level, we have implemented specific procedures on all our flights:

1. Our crews have been duly instructed on health recommendations and strictly carry them out.
2. They wear both masks and gloves at all times and also have a their disposal protective jumpsuit if required.
3. All the aircrafts in our fleet are carefully disinfected after each flight, following the protocols recommended by the Ministry of Health and the European Union Aviation Safety Agency (EASA).
4. Antibacterial gel is at the passenger's disposal on all our flights.

The safety and health of our passengers and crew members is, and always will be, our number 1 priority!
